

# St Minver School

Head of School: Mrs J Rodwell

Tuesday 3<sup>rd</sup> May 2022

**Last week** we found out some interesting facts about worms and snails. The children have thought about all the things they are able to do with their 2 legs and what snails and worms are not able to do. We did, however think that being able to slide into the earth like a worm could be quite good fun!

**This week** we are going to find out about creatures with a few more legs: spiders! What is a group of spiders called? How many legs do they have? How many eyes do they have? How do they make webs? Would it be fun to have 8 legs and why? We will also learn a little about sewing by making some webs, use our creative skills to make spiders, continue with our rhyming activities, recreate Matisse's 'Snail' picture, and start to sort insects in different ways.

**Tapestry** is being used slightly less by us in school now that the children can record their work in different ways. We will add some bits on to Tapestry but please also keep an eye on our class website page or the school Facebook page for weekly photos. Please also check Tapestry for the weekly challenge and pop information and photos on from home; it provides the children with a great opportunity to share their news and talk about their experiences.

Please remember to pop in to see me if you have any queries or concerns.

Kind regards,

Mrs A Warren
