

Whatever I do

There's a dream for me to follow, and I just can't wait.
There's a hope in each tomorrow, I won't hesitate.

Though the route may be uncertain, I will surely find my way,
Dim the lights and raise the curtain, I'm on my way!

Chorus

*And whatever I do I'll do the best I can.
Whatever I do I'll give it all I have to give.
I'll make my journey, set my goal,
Take my place and play my role.
Put to the test I'll give it the best I can.*

No one knows what's round the corner, I'll embrace it all.
Like the ones who went before, I'll face it standing tall.

There are gifts I have inside me, and I long to see them grow,
And a dream that's there to guide me, just watch me go!

Chorus

Like the sun I'll shine my light,
Like the stars I'll glow
And I'll share what I can offer everywhere I go
Like an eagle I will soar
And no mountain seem too high.
This is our turn, this is our time
And we're learning how to fly!

*(I'll shine my light and glow, ooh, ooh
Just like an eagle high.
Our turn, our time, learning how to fly!)*

Chorus

Take my hand and share this journey, this is where we start.
Let's begin this great adventure, and we'll play our part.

There's a new world to discover, and we'll find it day by day,
Finding strength in one another, we're on our way!

The best I can, The best I can
